

This Glass World

Yusuf Islam

In this glass world, we stop feeling pain
Going nowhere, we've got everything
In this glass world, people who live below
Wish they were here, just looking in.

In this glass world
In this glass world
In this glass world.

In this glass world, we bathe by starlight
No troubles here, that's on the outside
In this glass world, sittin' without a cake
No need to move, it's way too nice up here.

In this glass world
In this glass world
In this glass world.
