If I Could

Yvonne Catterfeld

If I could turn back time

Everytime that I think I'm over you
I see people do things that we used to do
Every season any time of the year
something reminds me of you
but you're naughty had no clue
I was true instead of telling you lies
that was wrong
now you're gone with a stronger bye

If I could turn back time
I would tell you it was never meant to be this way
You're still on my mind
and I know it was never meant to be this way, baby

I close my eyes and it's you that I see
I fantasize what you used to do to me
since you're gone my whole world is on fire
just can't go on cause it's you I desire

another dance another chance
to put my hands on the wheel
to get you back I want back
I would go wrong I would steal

If I could turn back time
I would tell you it was never meant to be this way
You're still on my mind
and I know it was never meant to be this way, baby

Turn back, back time
you'd still be mine
