

# Screamer

Yyrkoon

I have some words to say  
Trenchant as razor edge  
In my head they are  
Upped like a spear

What's ruling in their brains  
Something that I don't care  
Please change your way  
When you cross my road

The fire burns my eyes

I'm waiting for the sign  
To shoot a venomous arrow  
Let me time to find the inner power  
For the final explode

Screamer  
Raise your harms to the top  
Scream  
The words that burn yourself  
Call the devil's forces  
To break the claws  
Of this jungle

Screamer  
Raise your harms to the top  
Scream  
The words that burn yourself  
Call the devil's forces  
To break the claws  
Of this jungle

With a sword in a hand  
And a shield in the back  
You can try to lead your way  
Never look back  
Never try to give away

Please someone help me

Screamer  
Raise your harms to the top  
Scream  
The words that burn yourself

Screamer  
Raise your harms to the top  
Scream  
The words that burn yourself  
Call the devil's forces  
To break the claws  
Of this jungle

Screamer  
Raise your harms to the top  
Scream

The words that burn yourself  
Call the devil's forces  
To break the claws  
Of this jungle
