

## Mercy

Z-Ro

Everybody fin to die, by the hands of the dark angel adjust  
Snatching your breath, till it dims up your chest  
How much pain, can I manifest  
When I come to wreck, ripping through your flesh techs  
My killers you'll never see, invisible invisible are we  
Unseen like ghosts, strike like infrared beams make toast  
We smoke the most, but never bump the most  
Our figgas unleash like ropes, around throats  
Better feel the attack, cause we cloak in the image of smoke  
Leaving motherfuckers broke like a king of jokes, mercy  
I know not of a feeling, but the thriller  
Of a killer gets my adrenaline rushing  
Never stopping, watching niggas dropping  
More breaking blood gushing, I done opened the wounds  
As I destroy cities with typhoons, and masoons  
Your doom has awaited, all your mercy's forsaken time to die  
Gotta kill them all, every nigga fin to fall when I kill them all  
Found them up in bombs, ywith stomach punches  
Yelling and running, K of dynasty coming

Mortuless contender, Guerilla Maab member I be  
It'd be an epidemy, hoes wanna get rid of me  
Fin to be, found dead and deceased  
This ain't no game, ain't a damn thing changed  
Cause I came, to bring the pain  
Glock ass still fits, running on they head  
while they play it, I rise up in chains  
Hag in here, hag in here more deadly than anyone's intention  
It had to be, more casualties  
While I'm in more blemishes, than fatal inflictions  
Slice them up like a wolverine, but I use a machete and a guillotine  
Wanna stop like Akeim, on my god damn dream  
And now mark and ass niggas, recognize my team

Murderer in me, I love to see you bleed  
Murderer in me, I love to see you bleed  
Murderer in me, I love to see you bleed  
Murderer in me, I love to see you bleed

The murderous feeling, is killing your kin  
And tripping them niggas up, with a 4-5  
Hit the ground and running bud, then I probably bumping in blood  
A fast thug fin to lose his life, motherfucking nigga from Texas  
Steady with the dumb plexers, by the hand when I'm kicking your ass  
And everybody better ball on  
Cause I fuck around, and y'all gone and a nigga like me  
Cause I'm blessed with a tight 22's, AK-47, 3-57, Mac 11  
Ballin and and a 25, bulletproof vest and a sharpened shank  
Motherfucker your body gone stank, I'm flawless  
Swinging and leaving them jawless  
One of these niggas, are about to bleed  
Running with the big dog, follow my lead  
They following they mama straight, when we  
Put him in the streets I'm a regular competitor  
To the niggas, that I want to act surely  
Everybody wanna live, let the early bird get the worm  
Run up in the corner store bright early

Even though I be hanging with thugs  
Giving mean mugs, and I do a lot of drugs till I pass out  
When I smell a dirty rat, up all in my motherfucking face  
I'm hunting they, motherfucking ass out  
When I be stepping and pulling my whip  
And I'm ready to go to war, with them niggas  
That be stepping and pulling back, they fucking up grind  
It's going down, load the clip in the gun and I'm making them run  
A gorilla nigga evermore buck and he died, but who was the nigga  
That's talking down, don't really want me to get an attitude  
I'm slapping haters up out the niggas, that think of my trigger  
Won't be getting no automatic beatdown, but that's what I live for no mercy

Murderer in me, I love to see you bleed  
Murderer in me, I love to see you bleed  
Murderer in me, I love to see you bleed  
Murderer in me, I love to see you bleed

Walking the land, of a naked world  
Looking down, up on my enemies in vein  
With a mind full of deadly games, I'ma serve your aim  
Shouldn't of killed putting holes in your frame, feeling no remorse  
As deadly force overcomes my thugs, so bare witness  
Sense of relentless vengeance, and 24 victims of wickedness  
Out the hills of homicide, cause everytime I pull a whip enclosed  
I can hear the sounds of bodies, from the victim of 17 and reloads  
Did you really believe, that you could platinum-sieve a nigga like me  
I was born to murder the world, but killers and G's and evil deeds  
It'll be a whole lot of fly bringing  
Some saying, if you run up on me the wrong way  
I'ma be forced, to pull a AK  
Bust your ass in the head, when the lead spray  
No I'm not lying, I know you the fourth guy  
To a region in mouth, no time to shine  
You the dead victim of reincarnated, man for real I show no mercy

Murderer in me, I love to see you bleed  
Murderer in me, I love to see you bleed  
Murderer in me, I love to see you bleed  
Murderer in me, I love to see you bleed
