

# No More Pain

Z-Ro

No more pain, I'm bout to overdose on it  
I ain't never had no good times, I put my dogs and my locs on it  
Chain smoking, cigarettes back to back  
Unless I was pillow fighting with the kids, I miss that  
But it's a different day and time, and I'm all alone  
With nobody to call my own, different area codes popping up in my phone  
Prolly just another hoochie, searching for some sex  
It ain't got nothing to do with me, it's all about my checks  
If it wasn't for the music, you niggaz wouldn't give me dap  
Wouldn't give a fuck about how I'm doing, it's all about a rap  
Realizing I ain't nothing, without paper and pen  
So Lord forbid I get interect, like the deal she was in  
Let me make my mama proud, and she could see me  
Cause heaven ain't too far away from the ghetto, but touching it ain't easy  
God, give me the victory and bring me out the rain  
Give me something, to smile about and

(no more pain), somebody tell me what happiness is  
Cause I'm sick, of living so low  
(in my life), too many problems bottled up inside  
I promise, I can't take it no more  
(no more pain), if there's a brighter day let it come my way  
Let me see, the sun shine  
(in my life), cause I can't tell if I'm coming or going out  
Just wanna die sometime

First off, I gotta say that I'm thankful for Trae  
If I ain't never told you I love you, I'm telling you today  
Cause you made me, keep my head on straight  
When I was talking suicide, you made me keep my infrared on safe  
Instead of me sleeping outside, you would open your home  
And tend to your cousin, even though you had problems of your own  
I appreciate you my nigga, it's deeper than rap  
Somebody else, would of wanted to see me fall off track  
See I remember, when I couldn't afford to get a wing dinner  
Put my two dollars with yours, and we split a wing dinner  
Doing bad, even though we had our albums selling  
The distribution company was stacking, but they wasn't telling  
Us steady robbing us blind, with no money flowing  
Then we got independent, and we could see our money growing  
So maybe now, we could afford to give our people change  
Witnessing nothing but better days, and

(no more pain), somebody tell me what happiness is  
Cause I'm sick, of living so low  
(in my life), too many problems bottled up inside  
I promise, I can't take it no more  
(no more pain), if there's a brighter day let it come my way  
Let me see, the sun shine  
(in my life), cause I can't tell if I'm coming or going out  
Just wanna die sometime

Now when I say no more pain, let me explain  
Cause God will certainly, fence to happy that can't be changed  
I use to cry when my friends died, but then I realized  
I'm the one, who's still facing hard times  
I recall, fiending for my last breath

Cause I was struggling, and still ain't got what I'm suppose to have yet  
As far as these women, I've been through so many make-up's just to break up  
I'd rather be all alone, when I wake up  
No more pain, I'm not insane I'm just hurting  
But I been looking for feel good's, 27 years and still searching  
If it ain't one thang, it's another  
I'm living on memories, when I use to get along with my brother  
Since I never been, too much of a man to cry  
I shed tears, like it's a nine to five  
So to relieve, pressure from my brain  
I try not to give a damn about anything, so I can feel
