

# Real Thing

Zac Brown Band

It was in a crystal bottle on his desk  
He'd save it for the times to not forget  
I miss the way he'd share with me  
The things that he held true  
While the lessons rolled around his 80 proof  
All it took was

One sip and it blew my mind  
Those good ol' boys sure make it right  
Knowing smooth whiskey takes some time  
Ain't nothing like the real thing

And you can't go back once you get a taste  
Everything is second rate  
I'm talking genuine Made in the USA  
Ain't nothing like the real thing

Real thing  
There ain't nothing like the real thing baby  
There ain't nothing  
Real thing  
There ain't nothing like the real thing baby

Thought I'd been in love a time or two  
Didn't know that I was lost till I met you  
And I could tell that every other girl was history  
Never knew how real could feel till you found me  
All it took was

One kiss and you blew my mind  
An All-American kind of fine  
You know a good woman is hard to find  
Ain't nothing like the real thing

And you can't go back once you get a taste  
Everyone is second rate  
I'm talking genuine Made in the USA  
Ain't nothing like the real thing

The real thing  
There ain't nothing like the real thing baby  
There ain't nothing  
Real thing  
There ain't nothing like the real thing baby  
There ain't nothing  
Real thing  
There ain't nothing like the real thing baby  
There ain't nothing  
Real thing  
There ain't nothing like the real thing baby  
There ain't nothing

You know a great song is hard to find  
The right words and the perfect rhyme  
'Cause we all feel the same inside  
We're all looking for the real thing

You know you're not the same once you hear it play  
There's nothing else that can replace  
What's genuine Made in the USA  
Ain't nothing like the real thing  
I'm talking genuine Made in the USA  
Ain't nothing like the real thing

Real thing  
There ain't nothing like the real thing baby  
There ain't nothing  
Real thing  
There ain't nothing like the real thing baby
