

## Eternal Love

Zandelle

Eternal Love

Heaven, it seems so close when you're by my side  
When we're together it's paradise  
There's nothing in this world that brings me greater joy  
As when I look into your eyes

I never wanted anyone so much before

I call you up just so I could hear your voice  
Your laughter is music to my ears  
Your gentle touch sends shivers down my spine  
My passion soars when you are near

My love for you grows stronger day by day  
My heart belongs to you, believe me when I say

My life means nothing without you  
I feel such joy when we're together  
With all my heart I cherish you  
I want to make you mine forever my love

To kiss your tender lips and feel your warm embrace  
When you're upset, to make you smile  
To whisper in your ear and take you by the hand  
I'd travel for one million miles

The thought of losing you is just too much to bear  
Just hear these words and you will see how much I care

My life means nothing without you  
I feel such joy when we're together  
With all my heart I cherish you  
I want to make you mine forever my love
