

Pudgy Young Blondes with Lobotomy Eyes

Zao

Pudgy young blonds with lobotomy eyes
Keep their fingers down their throat to attract all the guys
Who will drug them at bars and take them home to his friends
She'll wake up the next day and she'll do it again
Vomit yourself into the social shining spotlight
Pudgy young blonds with lobotomy eyes
Get fat shoved in their chests and sucked out of their thighs
And your new broken nose will look so good when it mends
Worship MTV, watch and worship the trends
Queen of the congregation at a wax museum
Sit and rest at the feet of your airbrushed deity
Follow
Obey
Fall into the crowds
Falling faster
Blind
You're blind
Roll your eyes
Follow and just pretend
Your life is a shallow fleeting trend
