

## She's Not Me (Pt.1)

Zara Larsson

She doesn't love you - like I do  
She doesn't have my name  
However she tries - to act like it  
She'll never be the same

But she's new and she's beautiful  
You've never been in a fight  
Yeah it's awfully perfect now  
But you just know deep inside

She's not me  
She's not me  
She's not me  
Baby  
She's not me

Does she  
Make you feel wanted - like I did?  
Make you feel like you're the one thing that matters?  
You let her head rest - on your chest  
But when you close your eyes

You'll be seeing my face again  
I'll be crossing you mind  
You'll be dreaming of places we went  
And then you'll wake up to find

That she's not me  
She's not me  
She's not me  
Remember  
That she's not me

She's not me  
She's not me
