

So Good

Zara Larsson

(So good, so good, so good, so good)
You know my love is
(So good, so good, so good, so good)
You know my love is

My love, is more important
Than anything in the cup that you're holding
One little taste and have you open
I know you want, know you want some
Too strong, no limits
But it's not a finish so take your time with it
It go straight to your head, control your mind with it
Yeah, I know you want, know you want some

You know that I'm the only one that gets you higher
(Gets you higher, babe)
And you ain't gotta worry 'cause you know I got it
(Know I got it, babe)

You be, stuck on it 'cause my love so good
So you, keep coming back to get some more
I got you in your feelings, all emotional
My love, my love
(So good, so good, so good, so good)
You know my love is
(So good, so good, so good, so good)
You know my love is

My love, ain't running out
Got a endless supply there'll never be a drought
I put you to sleep, you never leavin' (hah), yeah
I know you want, know you want some

You know that I'm the only one that gets you higher
(Gets you higher, babe)
And you ain't gotta worry 'cause you know I got it
(Know I got it, babe)

You be, stuck on it 'cause my love so good
So you, keep coming back to get some more
I got you in your feelings, all emotional
My love, my love
(So good, so good, so good, so good)
You know my love is
(So good, so good, so good, so good)
