

# Uncover

Zara Larsson

Nobody sees, nobody knows  
We are a secret, can't be exposed  
That's how it is, that's how it goes  
Far from the others  
Close to each other.

In the daylight, in the daylight  
When the sun is shinin'-  
On a late night, on a late night  
When the moon is blindin'  
In the plain sight - Plain sight  
Like stars in hidin'  
You and I burn on, on.

Put two and to-gether - for-ever  
We'll never change  
Two and to-gether  
We'll never change.

Nobody sees, nobody knows  
We are a secret, can't be exposed  
That's how it is, that's how it goes  
Far from the others  
Close to each other  
That's when we uncover, cover, cover  
That's when we uncover, cover, cover.

My asylum, my asylum  
Is in your arms  
When the world gives heavy burdens  
I can bear it thousand tons  
On your shoulder, on your shoulder  
I can reach an endless sky  
Feels like paradise.

Put two and to-gether - for-ever  
We'll never change  
Two and to-gether  
We'll never change.

Nobody sees, nobody knows  
We are a secret, can't be exposed  
That's how it is, that's how it goes  
Far from the others,  
Close to each other.  
That's when we uncover, cover, cover,  
That's when we uncover, cover, cover.

We could build a universe, right here  
All the world could disappear.  
Wouldn't notice, wouldn't care  
We could build a universe, right here  
The world could disappear  
Yeah, I just need you near.

Nobody sees, nobody knows  
We are a secret, can't be exposed

That's how it is, that's how it goes  
Far from the others  
Close to each other  
That's when we uncover, cover, cover  
That's when we uncover, cover, cover  
That's when we uncover.
