

# What They Say

Zara Larsson

Break it up  
It can feel like I don't know, but I do  
And all I want  
Is something like seeing you smile  
Oh, yes I do

But you don't have to be here anymore  
So what you gonna do? Just go and call it off  
But what if I try another way  
Just take a little advice from me

Whatever you do, just don't believe what they say  
Whatever you do, just don't believe what they say  
'Cause they don't believe you like I believe in you anyway  
So whatever you do, whatever you do, babe  
Just don't believe what they

Never lie  
I go to the edge of the light every time for you  
Just do what you need, and I know that it's golden  
Just take what you want, and leave what you don't  
Let the world sink in and stick to your bones

'Cause you don't have to be here anymore  
I'm holdin' on to you, so you're not fallin' off  
So what if I try another day  
Just take a little advice from me

Whatever you do, just don't believe what they say  
Whatever you do, just don't believe what they say  
'Cause they don't believe you like I believe in you anyway  
So whatever you do, whatever you do, babe  
Just don't believe what they say, what they say

'Cause I believe in you with all of my heart  
Know that it's true, I know it's hard  
I believe in you with all of my heart  
Know that it's true, I know it's hard  
I believe in you with all of my heart  
Know that it's true, I know it's hard  
I believe in you (I believe in you)  
I believe in you

Just don't believe what they say  
( 'Cause I believe in you)  
What they say  
(Don't believe what they say, ooh)  
What they say  
(What they say)  
What they say (Ooh)
