

# When Worlds Collide

Zara Larsson

I wanna act a fool  
I wanna lose my cool  
I wanna hit the roof  
With someone like you

'Cause when worlds collide  
We put hopelessness aside  
When worlds collide  
We put hopelessness aside

I wanna drop my guard  
I wanna jump real hard  
Wanna start some fizz with someone new  
Just like you

'Cause when worlds collide  
We put hopelessness aside  
When worlds collide  
We put hopelessness aside  
When worlds collide

When worlds collide  
We put hopelessness aside

I'm gonna build from scratch  
Bring on the aftermath  
Yeah, I'm back on track with a better view  
Just like you

'Cause when worlds collide  
We put hopelessness aside  
When worlds collide  
We put hopelessness aside  
When worlds collide

When worlds collide  
We put hopelessness aside

Yeah, that's what it feels like, alright  
We put hopelessness aside tonight (tonight)  
We hopelessness aside

I wanna act a fool  
I wanna lose my cool  
I wanna hit the roof  
With someone like you

Yeah, that's what it feels like, alright  
We put hopelessness aside  
That's what it feels like, alright  
We put hopelessness aside  
When worlds collide

When worlds collide  
When worlds collide  
When worlds collide  
We put hopelessness aside

When worlds collide
