

# Box of Secrets

Zarif

A little bird once said to me  
U gotta live a little till your happy  
If u take alot u will be left with none

I had to learn a bit  
Live a bit  
Let it all sink in a bit

A little voice said  
Inside my head see  
How many hours has your day got left with  
The pressures of your day run out of time

To have a plan  
And keep with it  
Make a path and stick to it

Can't you x 6  
Can't you hold me  
I'll be x 6  
I'll be waiting to see  
Monitor x6  
Ohhhh the secrets of the universe  
Can't you x6

Open up ur box of secrets  
Take one out for me  
I'll show the number on my ticket  
And take one home with me  
Show me show me what you got  
Take it take it soak it up  
Open up ur box of secrets  
Take one out for me

A little bird once talked to me  
But then it flew away too quickily  
Didnt have the time to ask  
The things i needed

Gotta make my own mistakes  
Find the lessons i can take

Why do the answers hide away  
When we need a little guidance  
Through the day

If i can stay a float  
With my arm bands off  
Just keep going  
Laigh the bad days off

Can't you x 6  
Can't you hold me  
I'll be x 6  
I'll be waiting to see  
Monitor x6  
Ohhhh the secrets of the universe

Can't you x6

And take one home with me
