

A machine parade
Like a steel-on-flesh masquerade

This is the sound that makes the ground shake
Like a panzer, exterminate
How many chances are you willing to take?
Like a panzer, dominate

Why are you supreme? is this your enterprise?
Why are you still living these dreams of lies?
Not a human being or a thing between
The coldest machine the world has ever seen

This is the sound that makes the ground shake
Like a panzer, exterminate
How many chances are you willing to take?

When the skies and cities are burning
When your lungs are turning black
The machines are learning
Panzer - Full attack
Panzer - Striking back

Humanity waits for your call
This is where the humans fall
A machine parade, today
Like a steel-on-flesh masquerade

Where the fields are left in ruins
When the ground is full of tracks
The machines are turning
Here comes the second attack

When the skies and cities are burning black
The machines are learning
Panzer - Full attack
Panzer - Striking back
