

# Flight of the Stars

Zayn

I go where you go  
Go through Armageddon, girl I got you  
There's no goodbyes  
Only us, so I will follow  
Hold you close  
Standing on the edge of no tomorrow  
Still deep in us  
Get that rush so I still follow  
(Follow, follow, follow, follow)

I've been feeling high when I touch your body  
Till I feel the soul inside your body  
Can't believe my eyes, I swear you glow  
I follow you close  
Fingertips touch, all I want's your body  
Fingertips touch, all I want

All I want  
All I ever wanted  
Is in front of me  
Right in front of me  
What have I done  
Now what have I done  
This could be the end of me  
Be the end of me

I go where you go  
Go through Armageddon, girl I got you  
There's no goodbyes  
Only us, so I will follow  
Hold you close  
Standing on the edge of no tomorrow  
Still deep in us  
Get that rush so I still follow  
(follow, follow, follow, follow)

I've been feeling like I deserve somebody  
And you burn so bright you could blind somebody  
You go, following flights of the stars  
And these skies can get us home

All I want  
All I ever wanted  
Is in front of me  
Right in front of me  
What have I done  
Now what have I done  
This could be the end of me  
Be the end of me

I go where you go  
Go through Armageddon, girl I got you  
There's no goodbyes  
Only us, so I will follow  
Hold you close  
Standing on the edge of no tomorrow  
Still deep in us

Get that rush so I still follow

As long as you're feelin' the same, ah-ah  
I'll follow you into the flames, ah-ah  
As long as you're feelin' the same, ah-ah  
I'll follow you into the flames, ah-ah, yeah

I go where you go  
Go through Armageddon, girl I got you  
There's no goodbyes  
Only us, so I will follow  
Hold you close  
Standing on the edge of no tomorrow  
Still deep in us  
Get that rush so I still follow
