Flight of the Stars

I qo where you go Go through Armageddon, girl I got you There's no goodbyes Only us, so I will follow Hold you close Standing on the edge of no tomorrow Still deep in us Get that rush so I still follow (Follow, follow, follow, follow) I've been feeling high when I touch your body Till I feel the soul inside your body Can't believe my eyes, I swear you glow I follow you close Fingertips touch, all I want's your body Fingertips touch, all I want All I want All I ever wanted Is in front of me Right in front of me What have I done Now what have I done This could be the end of me Be the end of me I go where you go Go through Armageddon, girl I got you There's no goodbyes Only us, so I will follow Hold you close Standing on the edge of no tomorrow Still deep in us Get that rush so I still follow (follow, follow, follow, follow) I've been feeling like I deserve somebody And you burn so bright you could blind somebody You go, following flights of the stars And these skies can get us home All I want All I ever wanted Is in front of me Right in front of me What have I done Now what have I done This could be the end of me Be the end of me I go where you go Go through Armageddon, girl I got you
