

# Fresh Air

Zayn

You could be a changed man if you wanted  
You could make the doves cry if you wanted  
Tell me that you wanna die but you don't  
Tell me that you wanna die but you don't

I say I'm sorry, but you're never sober  
I start drinkin', it's too much thinkin', oh  
It's the same every time that you're with me

I think I need some fresh air (Fresh air, fresh air)  
Feelin' under pressure (Pressure, pressure)  
Don't wanna talk about it ('Bout it, 'bout it)  
Don't even get me started  
Over you  
You know I ain't tryna go pressure you

You and me got differences, differences  
You and me got differences  
Why you on some different shit?  
You and me got differences, differences  
You and me got differences  
Why you on some different shit?

Caught in a cycle  
So pardon my psycho  
Could've been right though  
Guess that's how life go  
There's nothing that I can do for you

I think I need some fresh air (Fresh air, fresh air)  
Feelin' under pressure (Pressure, pressure)  
Don't wanna talk about it ('Bout it, 'bout it)  
Don't even get me started  
Over you  
You know I ain't tryna go pressure you

I think I need some fresh air (Fresh air, fresh air)  
Feelin' under pressure (Pressure, pressure)  
Don't wanna talk about it ('Bout it, 'bout it)  
Don't even get me started  
Over you  
You know I ain't tryna go pressure you

You and me got differences, differences  
You and me got differences  
Why you on some different shit?  
You and me got differences, differences  
You and me got differences  
Why you on some different shit?  
Why you on some different shit?
