

Icarus Interlude

Zayn

Ooh-ooh (Ooh, ooh, ooh)
Ooh-ooh (Ooh)
Ooh

Call me Icarus
I guess I flew too close to the sun
Myth, they call me legend, that might be why
In my Yves Saint Laurent
Get the bees comin' in for the honey I supply

And if you ain't got it now, then you're in for a surprise
You won't get it in a lifetime (Lifetime)
I'm in the right place at the right time (Right time)

Girl, you love me better than anyone
Girl, you love me better than I've known
Girl, you love me better than I've known before
Better than I've known before
(Better than I've known before)

(Ain't no stoppin' what I know) (Before)
(What I know, ain't no)

Ain't no stoppin' how I feel
Plays on my mind in slo-mo
Every time as if it were real
Every night, oh, it's you I feel
That's who you are in my mind

I've been lyin' to the liars
I've been lyin'
I've been lyin' to the liars
I've been lyin' to the liars
I've been lyin' with the liars
Every night
Lyin'
'Cause I'm flyin'
I've been lyin' to the liars
Lyin' to the liars
