Blindside

Zebrahead

Hey man, are you doing alright? Is that noose around your neck tied on too tight? Ha ha, told you so You got sucked undertow One last chance to let the shit go Get away get away, it's a raw deal Down play, disarray it's a third wheel Unplay everyday to know what's real Mayday, mayday lost your ideal There is no ideal Feel me High impact blindside tonight When I was young, never compromised Low impact blindside tonight When I was young, never had to try Blindside, woah Blindside, woah Blindside Hey man, have you been up all night? Do you got to get numb so you can feel right? Ha ha, told you so Too high, vertigo One last chance to let it all it all go Get away get away, it's a raw deal Down play disarray, it's a third wheel Unplay everyday you know what's real Mayday, mayday lost your ideal There is no ideal Feel me High impact blindside tonight When I was young, never compromised Low impact blindside tonight When I was young, never had to try Blindside, woah Blindside, woah Blindside And the shot took a piece of me Fade in, fade out, if that's what you got Flash flood focus over me Fade in, fade out, if that's what you got And the shot took a piece of me Fade in, fade out, is that what you got? And the shot took a piece of me Fade in, fade out And the shot took a piece Fade in, fade out Of me High impact blindside tonight When I was young, never compromised Low impact blindside tonight When I was young, never had to try

```
High impact blindside tonight
When I was young, never compromised
Low impact blindside tonight
When I was young, never had to try
Blindside, woah
Blindside, woah
Blindside
Blindside
Blindside
```
