## **Veils and Visions**

I crash so hard Fall so low Just when things look right That's when you know that I'm alone I take the chance To lose it all Take a look around me And you'll see where I have stalled This is the last time that I'm sayin' And here's the end Of the night Of the line Won't somebody save me? Here's the time Time for more Time for everything and anything It's alright It's alright And we go on and on and on again The rooms on fire You lock the door Your new way of thinking will not get Me off the floor Take this time To take a fall I've given you my best And now you won't see that at all This is the last time that I'm sayin' And here's the end Of the night Of the line Won't somebody save me? Here's the time Time for more Time for everything and anything It's alright It's alright And we go on and on and on again Back beat Everybody is changing I'm so stuck and you are amazing This is my low You are the reason Live to be numb My fall is the season Inhale the bullshit Makes my skin itch but it gets me lit Don't ya wish that the pieces fit Like when we were kids You can't bide lost time

Can't bide lost time You can't bide lost time

## Zebrahead

Can't bide yours and mine You can't bide lost time Can't bide lost time You can't bide lost time Can't bide yours and mine Mine Here's the end Of the night Of the line Won't somebody save me? Here's the time Time for more Time for everything and anything It's alright It's alright And we go on and on and on and on On and on and on again
