

Baby's Got Me Up All Night

Zed

Baby... my baby's got me so tired
I've been staying up late for weeks
And been sleeping on the floor
But now I can't sleep cos I'm always thinking about her
And when I'm not I'm just dreaming
And she's holding me Again

Now baby's got me up all night
She's got me dreaming of her every day
And I can't seem to get it right
So should I tell her in another way?
Now baby's got me up all night

How long, how long do I depend on the photographs and the
Sad songs that keep her in my brain?
Because I'm out there, I'm burning that much brighter
I'm standing right there beside her as happy as can be...

Now baby's got me up all night
She's got me dreaming of her every day
And I can't seem to get it right
So should I tell her in another way?
Now baby's got me up all night
She's got me dreaming of her every day

And I can't seem to get it in my head
When she says she's never leaving me

Now baby's got me up all night
She's got me dreaming of her every day
And I can't seem to get it right
So should I tell her in another way?
Now baby's got me up all night

Baby... my baby's got me so tired
I've been staying up late for weeks
And been sleeping on the floor

Now baby's got me up all night
She's got me dreaming of her every day
And I can't seem to get it right
So should I tell her in another way?
Now baby's got me up all night
Now baby's got me up all night
