

Firefly

Zed

I'm burning just the same
Yeah just the same as you
Look into the flame
To find that I'm burning too
The story unfolds without any words
Your burning over fading under
Where you're going I don't know

Burn like a firefly
Fading into the night
Burn like a firefly
Something that's in my eyes
Burn like a firefly
Fading into the night
Burn like a firefly
Dying to save your life

I'm fading just the same
Yeah just the same as you
Washing you away with words that you say
Your burning over fading under
Where you're going I don't know

Burn like a firefly
Fading into the night
Burn like a firefly
Something that's in my eyes
Burn like a firefly
Fading into the night
Burn like a firefly
Dying to save your life

Burn like a firefly
Fading into the night
Burn like a firefly
Something that's in my eyes
Burn like a firefly
Burn like a firefly
Burn like a firefly
Dying to save your life
