Bag Of Gold

You found me Right when I was in The land Of the dark and cold

Don't forget everything That we have been A-fighting for Because we'll win this war We will win this war

Grab this bag of gold That was ours to hold (2x)

We'll stay up on guard All through the night Find a place to hide Until it's time to strike

They must know That we will never leave Even if they tried Even if they tried

Grab this bag of gold That was ours to hold (2x)
