

# High

Zella Day

We are high  
I'm in love  
We are high  
Small town American light

We are fine  
Feeling grown up  
And I'm in love  
And I'm crashing in your arms

You right in the sky tonight  
East side is a paradise of you  
You, you

Don't worry baby don't you cry  
As long as we keep getting high  
Keep burning like we're never gonna die  
Fire baby, fire baby, love  
Fire baby, fire baby, love

We are high  
I'm in love  
We are high  
Fucked up American boys

Drinking right  
We'll never give up  
Cause where we're from  
God is on our side

You right in the sky tonight  
East side is a paradise of you  
You, you

Don't worry baby don't you cry  
As long as we keep getting high  
Keep burning like we're never gonna die  
Fire baby, fire baby, love  
Fire baby, fire baby, love

Feeling like this and we're all alone  
Feeling like this and we're all alone  
Feeling like this and we're all alone

Feeling like this and we're all alone  
Got me like this and we're all alone  
Got me like this and we're all alone

Don't worry baby don't you cry  
As long as we keep getting high  
Keep burning like we're never gonna die  
Fire baby, fire baby, love  
Fire baby, fire baby, love
