

## Over Our Heads

Zero 7

Close your eyes  
Can't you see it's burning slow  
Fading down the sparks of fire earth bound  
Space in two  
Warm beyond the love below  
Close your eyes  
It's time for us to go

Over our heads  
Light keeps passing through  
Over our heads  
Lite from me to you

Falling down  
Way beneath the healing skies  
Rise and shine  
The crying times left behind

Over our heads  
All we see is true  
Over our heads  
Can't you see it too

Over our heads  
Light keeps passing through  
Over our heads  
Lite from me to you
