

## Swing

Zero 7

Thought you'd be forever the same  
When did you become so easy to change?  
Can't like who I won't

No, that's not true, I do know  
Just can't figure out how to pin down

There will be no unguarded kisses  
Let go of my hand when they're around  
They say I'm unsound

But what do they know?  
They can't figure out how to get down, down

Soon enough I won't care  
Stay in my arms if you dare  
You can't romanticize

They are crazy, will only let you down  
Try to figure out how to keep you down  
They're all alone, I will keep you down

Down, down  
Down, down  
Down, down
