

Idiot Music

Zeromancer

It's the words you don't say
That keeps ringing in my ear
I feel like an idiot
To think that you really cared
It's the kiss you don't blow
that I keep brushing off my chin
It's the punch you don't throw
That keeps hurting within
I only loved you

Whatever you do
Whatever you say

It's the words you don't scream
That being sucked back in
A dream within a dream
It's not what you've seen
It's what you don't understand
That makes you sharper than
The ones who
Take advantage of you
I only loved you

Sick of this music

Whatever you do
Whatever you say
A cellular goodbye
