## **Something For The Pain**

## Zeromancer

Something for the pain inside me that will never die The pain inside me that will never die

My heart bleeds look at you hiding all the things to endure me

I need you here with me breathing wanting you to believe me

Something for the pain inside me that will never die The pain inside me that will never die

I see you in all of these faces blush with shame when I think of you

and your pale skin
I sell my soul for you

Hush Hush never enough never enough

The pain inside me that will never die Something for the pain inside me that will never die
