Zhu

I asked her can I have your number
Looks like blue must be your color
Love the way you wear that dress
Even though your hair's a mess
She said its Isabel Marant
And I got everything you want
Only questions can you hang
Will you come and entertain?

I will, I will, I will
Never forget the thrill
We know we know we know
What we came for [x2]

They don't got it like that where you from
If you give me what I want I'll give it to you right back [x2]

She told me was from morocco
By the way of south Chicago
Graduated in the bay
Had her birthday in LA
Said I had to go to Paris
Private jets on her parents
Asked me if I wanna roll
I said if you take me home

I will, I will, I will
Never forget the thrill
Cuz we know we know we know
What we came for [x2]

They don't got it like that where you from
If you give me what I want I'll give it to you right back [x2]
