

Life is all about you and not at all about you  
Now, that's two opposing thoughts and yet both of them are true  
How can you experience everything you choose to do  
While observing the experience you're having from a higher view  
See, it's the question, not the answer, that's the [?]  
Otherwise, you couldn't differentiate between the two  
Awareness? But of who?  
You think you hurt me, but I promise I was letting you  
They say we're all one, but where have we been headed to  
I'd rather die free than have to live inside a [?]  
I am the journey that I'm getting to

I could be it all, I'll make a good life  
Let me lose my mind, it's the only way to love  
Only way to, only way to love  
I could be it all, I'll make a good life  
Let me lose my mind, it's the only way to love  
Only way to, only way to love

Gratitude is my destination  
My destiny is perfectly aligned with this location  
I am the map, so I travel back in time  
I have everything I want cause my imagination is mine  
But mind is not enough for me cause I am not my mind  
I could see it all, but never get to see I'm truly blind  
I could be it all, but all identities intertwine  
The moon is only bright cause it reflects the sun's shine

I could be it all, I'll make a good life  
Let me lose my mind, it's the only way to love  
Only way to, only way to love

It's not the human race, it's just the human race  
There's nothing left to chase, we do not run this place  
But both medicine and poison's an acquired taste  
So I started taking selfies of somebody else's face

Tell me something  
What is more genius than a child's laughter  
Are we not simply the children of this world?
