

Modern Conversation

Zhu

Breathe
There is hope
Speak
Tell us on the phone
Sing
Songs from the radio
He leaves
Your bag alone

Give it to me
Psycho communication
Give it to me
This is more than just relations
Give it to me
We can test the patience of this modern generation
We can make a new creation
(x2)

Say
The parts that you wrote
Believe
That we're not all dead and gone
Please
Tell me you will be right at home
You leave
But I was here all along

So you're wrong
I keep falling crazy for you
So you're wrong
I keep falling crazy for you
So you're wrong
I keep falling crazy for you
So you're wrong
You, you, you

Give it to me
Psycho communication
Give it to me
This is more than just relations
Give it to me
We can test the patience of this modern generation
We can make a new creation
(x2)
