

# Higher Vibrations

Ziggy Marley

These city walls  
Are like a prison  
Why we gotta keep on living  
With our backs against the wall

We are creatures of love  
Victims of hate  
We gotta keep on living  
With our backs against the wall

No, no, no  
Start living on a higher vibration  
Now we take it to the heights of creation

Perfection of divinity  
Is everyone's duty  
Don't waste your time  
Living for the vanities

We are creatures of faith  
Victims of destiny  
Which we create

Now we living on a higher vibration  
'Cause we take it to the heights of creation

You know what I'm talking 'bout  
Don't tell me, no  
Baby I could scream and shout  
But I won't

It's a human experience  
On another sphere  
Well, it's a human existence  
On another wavelength

Listen to me now  
Now, we living on a higher vibration  
Then we take it to the heights of creation

Let me take you little higher  
And then you take me little higher
