

Let It Go

Ziggy Marley

Let it go, let your body go
When the music flow
Got nothing to lose
When we're dancing to the music

Let it go, let your body go
When the music flow
Got nothing to lose
When we're dancing to the music

It's a vibration
A sensation, a natural mystic all around
Coming to you from above
Coming to you from underground

It's a vibration
A sensation, a natural mystic
Coming to you from above
Coming to you from underground

Let it go, let your body go
When the music flow
Nothing to lose
When we're dancing to the music

Let it go
(You've got to let it go)
Let it go
(You've got to let it flow)
Let it go
(You've got to let it go)
Let your body go
(You've got to let it flow)

Sometimes we just got to let go, yeah
Of everything we think we know, yeah
(Of everything we think we know)
Sometime we just got to be free
No one tellin' us how we should be

Let it go, let your body go
When the music flow
Got nothing to lose
When we're dancing to the music

Let it go, let your body go
When the music flow
I got nothing to lose
When I'm dancing to the music

Just call me music
And don't call me nothing else
Just call me music
And don't call me nothing else

All you might
Say we dancing through the night

With all the might
We say we grooving through the night

Sometimes you just got to let go
Of everything you think you know, yeah
(Of everything you think you know)
Sometime we just got to be free, we
No one tellin' us how we should be, hey

Let it go, let your body go
(You've got to let it flow)
Let it go, let your body go
(You've got to let it go, you've got to let it flow)
Let it go, let your body go
(You've got to let it go, you've got to let it flow)
Let it go, let your body go
(You've got to let it go, you've got to let it flow)
Let it go

Sensation, a natural mystic
Let it go
A sensation, a natural mystic
Let your body go
Let it go now
Free your ... now
Free your soul now
Let it go
