

# Never Deny You

Ziggy Marley

All the love that we share  
Could never just disappear  
And all that we've been through  
I believe in you

I will never deny you  
I will never deny you  
I will never deny you  
I will never deny you

Friends said to me one day  
I should forget you  
But my experience say  
What we have is true, yeah

I will never deny you  
I will never deny you  
Oh, I will never deny you  
And I will never deny you

Hey hey, Judas, they will betray you  
And Thomases, they will doubt you  
Peters, they will deny you  
But I will never deny you

I-I-I  
I-I-I  
I-I-I

All the love that we share  
Could never just disappear  
And all that we've been through  
I believe in you, yeah

I will never deny you  
I will never deny you  
Oh, I will never deny you  
And I will never deny you

Oh, I will never deny you  
(Will never deny you)  
I will never deny you  
(Will never deny you)  
I will never deny you  
(Will never deny you)  
Oh I
