

# Walk Tall

Ziggy Marley

Walk tall, walk tall  
Even if you fall get up  
Stand tall, stand tall  
Even if you fall get up

Walk tall, walk tall  
Even if you fall get up  
Stand tall, stand tall  
Even if you fall get up

Life is a lesson that we must learn  
If you play with fire you might get burned  
If you worry too much  
You gonna get stressed  
So brush off the dust  
And lift up your chest

Everyone creeps before they walk  
Everyone cries before they talk  
There comes a time you gotta be strong  
So pick up your feet and sing this song

Don't you worry 'bout how it looks  
Not everything was written in a book  
Some things you learn as you go  
But here's one thing you already know

Nothing is ever gonna keep me down  
I jump over hurdles I'll come around  
And if at first I don't succeed  
I'm gonna try it again  
Till I get what I need

Jook it

Even if you fall get up  
Even if you fall get up  
Even if you fall get up  
Even if you fall get up  
Yeah

Walk tall, walk tall  
Stand tall, stand tall  
Walk tall, stand tall  
Walk tall, stand tall
