

# Won't Let You Down

Ziggy Marley

Daddy said on his bed  
I'll never forget

On your way up  
Take me up  
On your way down  
I won't let you down

I call on you, you call on me  
Where can I find my destiny?  
I need to find some transportation  
To the new iration

On your way up  
Take me up  
On your way down  
Don't you let me down

On my way up  
I will take you up  
On my way down  
I won't let you down

I sleep but my heart waketh  
This is the voice that I heard, yeah  
Take off my cloth but now I put it on  
Love will never deny me

I won't let you down  
I won't let you down  
I won't let you down

I won't let you down  
I won't let you down  
I won't let you down

I won't let you down  
I won't let you down  
I won't let you down

I won't let you down  
I won't let you down  
I won't let you down

I call on you, you call on me  
Where can I find my destiny?  
I got to find some transportation  
To this new iration

On your way up  
Will you take me up?  
On your way down  
Don't you let me down

On my way up  
I will take you up  
On my way down

I won't let you down

I won't let you down

I won't let you down

I won't let you down

I'll take you up now
