

## Suddenly

ZOEgirl

Solo, lonely and afraid  
Hold on, something's bound to break  
Falling down, running from the promised land  
Midnight, and I'm still awake  
Don't feel right, haven't slept for days  
I'm so tired my thoughts are getting weak  
And I'm wired, can i get some peace?

Suddenly you are here with me  
Finding a reason to believe  
I know you'll be here to the end of time  
And when the night falls all around  
My frightened heart the only sound  
I know you'll be here to the end of time

Maybe it was my mistakes  
That kept on pulling me away  
I was still living yesterday  
The message that i want to relay  
Without Him, there's no other way  
So don't try to make it on your own  
When you're lost, He will lead you home

Can't imagine life without your hand in mine  
I can't believe I've lived this long without you  
I know that You will find a purpose for my life  
Beyond my wildest dreams, beyond what I can see

Suddenly you're here and I'm not alone anymore  
When the night falls 'round, I am not alone anymore
