

# Dangerous Days

Zola Jesus

You're gonna win these odd days  
You never stood to fight for your name  
And I will be there unspoken, curious

You never were the one for us  
You never were the one for us  
And then I'd just lay here open

On the floor, on the ground  
On the stairs, on the way  
On the floor, on the ground  
On the stairs, on the way

It's a dark, dark day  
And it's dangerous to go  
And listen what they say  
It's a dark, dark day  
And it's dangerous to go  
And listen what they say

In the way, the way you hold yourself straight  
You never were innocent  
And then I just lay here frozen, curious

You never were the one for us  
You never were the one for us  
And then I'd just lay here open

On the floor, on the ground  
On the stairs, on my way  
On the floor, on the ground  
On the stairs, on the way

It's a dark, dark day  
And it's dangerous to go  
And listen what they say  
It's a dark, dark day  
And it's dangerous to go  
And listen what they say

It's dangerous  
It's dangerous to know when it comes  
Are you gonna throw your body  
Into the drain

No word's right for your name  
Lose all that gold, it's all the same  
It's dangerous  
It's dangerous

It's a dark, dark day  
And it's dangerous to go  
And listen what they say  
It's a dark, dark day  
And it's dangerous to go  
And listen what they say

It's dangerous  
It's dangerous
