

## Argh... I'm A Pirate

Zolof The Rock & Roll Destroyer

Give me back my brain  
I said that before  
You, you're so cute  
And put out too  
If we were in a zoo then maybe I'd streak too,  
You beat me to the bedroom

You and me we're like little machines  
We run around the room and mess up sheets  
No one can put me to sleep except you

We're not all about it but not above it too  
It's just that it's that good  
So let's turn this room into a pirate ship  
And plunder, each other  
You and me we're little machines  
We run aroon, around our hometown streets  
No one can put me to sleep, except you  
Do

(Give me back my brain)  
Give me back my brain  
(Give me back my brain)  
Give me back my brain
