

There's That One Person You'll Never Get Over No Matter How Long It's B

Zolof The Rock & Roll Destroyer

Someone screwed up about half past night
Wish I'd been up I could've had a blast then run
But I know know there's that one person everyone has
That messed them up and they're still thinking about them
They're everywhere, They're everywhere
Between the booze bob goes
Go out and have fun
Now nodding off I know I should've listened to him
But I know now that I'm not half as bad as I thought
It's everyone and I feel better knowing that
We're everywhere, we're everywhere
We're everywhere, we're everywhere
