

Dealing The Death Card

Zombie Ghost Train

Got 'em all condemned to dyin'
This broken road I walk alone
Now I think my life is flying,
Heading towards the great unknown
Gotta try and break this fever
I've lost my trust in you
It's been a long day at the morgue
This dead streaks gotta break

I've done my time
I've done my time
I've done my time
With this frankenstein monster of mine
Dealing the death card the man with the mark
Dealing the death card and fighting the dark
Dealing the death card and holding the hand of fate

I got a date with the coal miner's daughter
This diamond from the world of black
Get it straight, here's my order
One serve of sanity
I took a sip from the devil's water
Broken glass under my feet
I roll the dice at the hot time slaughter
Breakin' this misery

I've done my time
I've done my time
I've done my time
With this frankenstein monster of mine
Dealing the death card the man with the mark
Dealing the death card and fighting the dark
Dealing the death card and holding the hand of fate

Got 'em all condemned to dyin'
This broken road I walk alone
Now I think my life is flyin',
Heading towards the great unknown
Gotta try and break this fever
I've lost my trust in you
It's been a long day at the morgue
This dead streaks gotta break

I've done my time
I've done my time
I've done my time
With this frankenstein monster of mine
Dealing the death card the man with the mark
Dealing the death card and fighting the dark
Dealing the death card and holding the hand of fate

I'm dealing the death card the man with the mark
Dealing the death card and fighting the dark
Dealing the death card and holding the hand of fate

I'm dealing the death card the man with the mark
Dealing the death card and fighting the dark

Dealing the death card and holding the hand of fate

I'm dealing the death card the man with the mark
Dealing the death card and fighting the dark
Dealing the death card and holding the hand of fate
