

The Big Fog

Zombie Ghost Train

Take me back to the place,
where I've seen it before.
Before the time I lost it,
where you will see,
the shadow that still haunts me.

Time, time to leave,
The day chases me.
The light is coming for you.
Leave me in the dark,
the shadow that is my only friend.

Shadows falling,
can't you see that time is looking dim,
With the mist I draw you in, inside the big fog.

Falling down on your knees,
searching for some,
Someone to carry you out of here.
Straight from the road,
no time to fall your way
will never be clear

Shadows falling,
can't you see that time is looking dim,
With the mist I draw you in, inside the big fog.
