

Creature of night

Zombie Girl

I am alone here in darkness
I embrace the night
Staring up at the sky
I can't help wonder why
Nobody is there to love me
'Cause what I am
A creature of the night
I've never seen the light

Please help me understand
Why I have to be all alone
Why can't somebody love me?
Please come and set me free

I will be here for you
Take care of you through all the nights
Why can't somebody love me?
Please come and set me free

I am the creature of the night
There's no love for me in sight

I'll will be lost here forever
Underneath the stars
Waiting for the one
Before the rising sun
It's getting colder
Inside I smoulder

And all I hear them say is "Evil lies within her"

Please help me understand
Why I have to be all alone
Why can't somebody love me?
Please come and set me free

I will be here for you
Take care of you through all the nights
Why can't somebody love me?
Please come and set me free

I am the creature of the night
There's no love for me in sight
