

Gunpoint Salvation

Zonaria

It begins as a rising tide
Then comes crashing down
Show no remorse, only force
It's my destiny
To fight terror and false beliefs
Everything you have ever loved will be destroyed
Bodies swept away uncontrolled
As all sweet feelings turn to overload
I am going on my own but I'm never alone overload
I'm not alone

Fall out
Into chaos descend
Will it ever end?
Sweet angel
Put the gun to my head and give me peace
Fall out
Into chaos descend
Will it ever end?
Sweet angel
Put the gun to my head
And I will never be alone

I will show you no remorse
Only force
It's my destiny
I sold my soul to stain the century
They turned the world into my enemy
I sacrifice, victimize, crucify the earth
For another bullet's birth
Indestructible, don't give in to fear
Put the gun to my head
Gunpoint salvation
Let there be no fear
No, no, never show no fear
Put the gun to my head
And I will never
Never be alone

Fall out
Into chaos descend
Will it ever end?
Sweet angel
Put the gun to my head and give me peace
Fall out
Into chaos descend
Will it ever end?
Sweet angel
Put the gun to my head and please give it to me
Fall out
Into chaos descend
Will it ever end?
Sweet angel
Please give it to me
Give it to me
I will never be alone
For I am my own indestructible enemy
