## **Liberation Zero**

You puppy-eyed faggots I'm gonna feed you to the maggots Fuck you, can't you see you're the enemy? I won't submit to this slavery

Liberation zero

There won't be another tomorrow With imperial eyes they control Machine guns feel no sorrow Godspeed, it's your final call

Liberation zero

Sky has fallen The terror has begun You are never the ones to justify Raping through centuries Spare me your fucking lies For my dying wish is to be alive

Refuel your veins with inhumanity Set me free from this wicked dream Drink up, receive immortality Pain, misery, weakness inflicted

Only fools follow you

This is your final call

Sky has fallen The terror has begun You are never the ones to justify Through bleeding fingers It all will fade away I am the one to glorify

Raping through the centuries Spare me your fucking lies For my dying wish is to be alive Just let me be alive

You will fail Because only fools follow you
