

Grey Day

Zoot Woman

No relief
From this blue melody
The right words
Escape me

Love you go down
Love is a race now

Know your face
From this blue memory
Open doors
Close on me

Love you go down
Love is a race now

Put your smile on my face
Stop me wasting away
Make a promis you break
Green light all the way
To a grey day

Love you go down
Love is a race now

Each new voice
And good times
Let me be
Change your tune
Sounds the same

Put your smile on my face
Stop me wasting away
Make a promise you break
Stop me wasting away

Put your smile on my face
Stop me wasting away
make a promise you break
Green light all the way
To a grey day
