

## Just A Friend Of Mine

Zoot Woman

Stop me in my tracks now  
You know I'll go too far  
I can't feel the moment  
Let me see the star  
Take me through the motions  
Know that you know how  
All the things that captivate  
You can save me now  
All the time going out of my mind  
See your smile such a different style  
All you want to be is just a friend of mine  
All you want to be is just a friend of mine  
Good time conversation  
How could I forget  
I can't write off all the history  
All that I regret  
Feelings contradicting  
I can't work you out  
Too long complicating  
What we're all about  
All the time going out of my mind  
See your smile such a different style  
All you want to be is just a friend of mine  
All you want to be is just a friend of mine
