

Lonely By Your Side

Zoot Woman

I'm counting my lives
Feeling the strain
To get right with you can't be this hard to do
No saving this day
My chance slips away
These words overdue won't stop me from losing you

And it's lonely, lonely
Lonely by your side
And I've nowhere
Nowhere left to hide (x2)

No time on our side
Can't open my eyes
It hurts me to see you long for some purity
Through all of the years
A slave to the tears
Another reason to cry
The last time for you and I

And it's lonely, lonely
Lonely by your side
And I've nowhere
Nowhere left to hide (x2)

lonely, lonely, lonely by your side
nowhere, nowhere left to hide

I'm counting my lives
Feeling the strain
To get right with you can't be this hard to do

And it's lonely, lonely
Lonely by your side
And I've nowhere
Nowhere left to hide
