

More Than Ever

Zoot Woman

Time is on our side
Without you I've got no
Love is on our side
Without you I've got no

Waited such a long time
But it's still the wrong time
I can't feel a thing
But I still want you more than ever

Know what I believe in
Everything I see in you
Is all I need
And I still want you more than ever

Know there's a way to
The side that you don't show
Walking the bright side
To somewhere I don't know

Waited such a long time
But it's still the wrong time
I can't feel a thing
But I still want you more than ever

Can't feel
Can't explain
How much I want, want you more than ever

So you're not feeling
This is the only
Road we can go down
How much is there left now?
How much is there left now?

Still want you more

Waited such a long time
But it's still the wrong time
I can't feel a thing
But I still want you more than ever

Know what I believe in
Everything I see in you
Is all I need
And I still want, want you more than ever
